

2018 Student Voting Results

The Student Governmental Affairs Program is proud to have compiled data from students across the country during the 2018 school year. These results show a diverse range of opinions, serving as a guide to how America's youth feels about today's pressing issues.

● Yes ● No ○ Undecided

Should Congress eliminate the Diversity Visa Lottery program for immigrants? (2/2018)

Should the minimum legal sales age for tobacco products be raised to 21?

Should Congress raise the federal minimum wage?

Should the Senate vote to confirm Brett Kavanaugh to the Supreme Court?

Does the CLOUD Act strengthen digital privacy protections for Americans?

Should the U.S. enact stricter gun control laws?

Should the U.S. allow offshore drilling in its waters?

Should Congress require internet service providers to practice 'net neutrality'?

Should Congress pass a balanced budget amendment?

Should the federal government regulate tech companies?

Should the U.S. weaken its fuel efficiency standards for cars?

Should parents be fined if their children bully?

Will imposing tariffs on China help the U.S.?

Should internet retailers collect state sales tax?

Should welfare recipients be drug tested?

Should Congress eliminate the Diversity Visa Lottery program for immigrants? (2/2018)

Think it Through

1. What issues do you feel most passionate about and why?
2. Looking at these results, how would you vote on certain issues?
3. How can students get involved in the political process?
